

FOR IMMEDIATE RELEASE

## Karaoke Locker Announces Partnership with ARIA® for Online Music Downloads

**Clearwater, FL – April 21, 2010** – KaraokeLocker.com, a subsidiary of Digital 1 Media, today announced the launch of its partnership deal with ARIA, a new music software suite that features a Karaoke player and recorder. Now, for the first time, when ARIA customers are using ARIA Karaoke® they can purchase tunes from Karaoke Locker directly in the ARIA application – quickly search, purchase, download and play – all without ever leaving the application. The music never stops.

Even better, ARIA Karaoke is also available for mobile apps like iPhone and Droid and they are connected to Karaoke Locker too, so you can take your music with you. “Now everyone gets their song and the party never stops” says Ashley, an avid karaoke fan. “I can download my friend’s favorite song on the way to the Mall. It’s great.”

“Karaoke Locker is proud of our partnership with ARIA, which allows users of the ARIA software to purchase tunes directly in the ARIA application. Buy on the fly is what we call it,” said Ryan at Karaoke Locker. “We look forward to growing with the ARIA community.” The Karaoke locker ARIA integration is seamless and user friendly, offering the user the best on the fly entertainment experience.

### **About Karaoke Locker**

Karaoke Locker is an award winning download service with thousands of new and back catalog karaoke tunes. Styles range from Lady Gaga to Sinatra, Country to Latin, giving users the ultimate diverse karaoke catalog to suite any singing urge. Karaoke Locker currently offers nearly 10,000 tracks available for download that include music and on screen lyrics, with more new tunes and oldies added regularly.
